

# 200% Guarantee

You read that right. We build top quality products, and we *know* that you will love your new EMC motors, but if for any reason you are not 100% delighted with your new EMC stainless steel motor, you can send it back to us at our cost within 30 days of receipt, and we will refund you a full 200% of the purchase price. While the EMC guarantee is "No Questions Asked" we do hope for honest feedback in the unlikely event of a product return so we can apply continuous improvement to our products, and serve our customers even better!

Erie Motor Company (EMC)
